

## Scientists at EVPA are ...

We work practically using different types of scientific enquiry.

Identify and  
classify

Comparative  
and fair tests

Pattern seek

Observe changes  
over time

Carry out  
research

Ask scientific  
questions

Use scientific  
equipment

Recall and apply  
our knowledge

Think and  
evaluate our  
work.

Learn in the  
natural  
environment.

We link these skills to how Scientists work in different jobs,  
from the past and the present.
